PROFILE

Full-stack developer and Computer Science & Engineering undergraduate at Daffodil International University, focused on building practical web applications with React, Next.js, Node.js, Express and SQL/NoSQL databases. Comfortable across the stack — from REST APIs and authentication to responsive and 3D interfaces. Currently strengthening Docker and system design fundamentals while working in a process-driven industrial environment.

TECHNICAL SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3
3D / Realtime	Three.js, React Three Fiber, Socket.IO, WebSockets
Backend	Node.js, Express.js, REST APIs, JWT Authentication, EJS
Databases	MongoDB, Mongoose, MySQL, PostgreSQL, Supabase
Languages	JavaScript, TypeScript, Python, C / C++, Java, SQL
Tools	Git, GitHub, Postman, VS Code, Linux, Vercel

EXPERIENCE

Web Developer Intern · Goinnovior Limited — Jun 2026 – Sep 2026 · Dhaka, BD

- Built responsive React / Next.js interfaces, turning designs into reusable components.
- Integrated REST APIs and implemented authentication, form validation and state management.
- Worked in an agile team using Git and GitHub for version control and code review.

Apprentice Grade-2 (Operator) · Bangladesh Chemical Industries Corp. (BCIC) — Oct 2026 – Present · On-site

- Follow plant operating procedures and safety standards in a continuous-process environment.
- Maintain shift documentation and coordinate with the technical team — discipline, accuracy and process thinking.

SELECTED PROJECTS

Space Relics 3D — Solar System Explorer | Next.js · React · Three.js · R3F

Interactive 3D solar system mapping real NASA hardware to each planet, with a 1962–2031 year timeline, handheld explorer UI and a guided tour over a static mission dataset.

TICI Course Planner | Next.js · TypeScript · MongoDB · GridFS

Responsive course-management app for BCIC's TICI apprentice programme: weekly routines, lecture-sheet downloads, exam syllabus and a password-protected admin panel.

Real-Time Map Tracking | Node.js · Express · EJS · Socket.IO

Live location-tracking dashboard that streams device positions over WebSockets onto an interactive map with server-side session handling.

Expenza — Expense & Investment Manager | React · TypeScript · Supabase · PostgreSQL

Personal finance dashboard for income, expenses, investments and loans with categorised transactions, account overviews and interactive charts.
